<b>Proportion of spend</b>	<b>17.5%</b>	<b>17.5%</b>	<b>-</b>

### Progress Update:

Though early in their journey, Anglia Farmers have taken a significant step in addressing their environmental responsibility. Their modern premises meant thinking outside the box was required when suggesting actions to tackle the business' energy consumption.

### Results:

With numerous staff working for the business tackling behaviour and attitudes towards energy efficiency is an essential process. Engagement of staff was seen to be a low cost action which could bring significant savings in both expenditure and carbon.
